IMPORTANT FROM CHILE.

We have been favoured with the following highly important telegram received yesterday from Valparaiso.

Valparaiso, Feb. 5th.

Mr Proctor, agent in Chile of the Peruvian Bondholders represented by the Committee of which Mr Croyle is Chairman, received a telegram to-day from London from said Committee and that of which Sir Charles Russell is Chairman, the latter formerly a supporter of the Peruvian Government. It runs so:

"Great meeting of Peruvian Bondholders, and all unanimous in favor of your arrangement with Chile."

The meeting took place on 2nd Feb. What brought about the fusion of the two Committees was Pierola's contracts with Dreyfus, which seriously affected the Bondholders, and which the Lima Press condemns, in spite of the Dictator, the *Comercio* being at once suppressed and the printing-office prohibited from publishing any other paper.

FRESH CAPITAL.

The 'Rural Magazine,' in its last number, publishes certain figures that of right should interest this market; yet things are so much out of joint that politics usurp the place which such subjects should occupy in our newspapers. We except our colleague the *Libertad*, who has steadfastly occupied itself with these matters. There is no more useful periodical published in the Plate than this 'Rural Magazine,' and we much regret that the number of its subscribers is so limited. Properly speaking, it should have the largest circulation of all our papers, since it eschews politics and only treats of topics connected with the progress and industry of the country.

Not very long ago, when much speculation was going on in the Bolsa, estimates were made of the total gold coin in the Republic, and the figure arrived at was about seven million patacons—a sum so ridiculously small for a country so large that only those who were intimately connected with the market could have believed; but this estimate was made with a full knowledge of the specie capitals of our banks and the business they were doing, and was generally accepted as the proper figure. The 'Rural Magazine,' in its first chapter this month, shows that the total gold coin in the Australian banks is forty-one million pats.; their cash capitals, one hundred millions pats. gold; notes in circulation, twenty millions pats. gold; deposits, two hundred and fifty millions pats. gold; discounts, 325 millions gold pats. If we compare these figures with those of our market, we see the wide difference that exists, and that if much of Australian progress is due to its well-regulated supply of capital, the progress of the River Plate really owes nothing to capital at all.

The fertilizing power of capital in the River Plate has yet to be proved, since, if we descend to individuals, we must admit that those who have made the greatest fortunes have begun with no capital at all, whilst even as to class the same theory holds good; and one of the most difficult of all tasks is for a beginner in the Plate with money to succeed.

The River Plate may be accepted as one of the most exceptional of countries; it has progressed more rapidly of late years than any other we know of, and if that progress has suffered check, it was from the introduction of foreign capital, the very cause which advances Australia, New Zealand and other new countries.

In Australia and other lands fresh capital creates fresh industry. In the Plate it creates fresh extravagance; and although the theory must hold good that fresh capital is a necessity to a new country, still we cannot conceive any greater misfortune for this place than forty-one millions pats. gold in our banks. The great crisis, which so much checked our progress, was solely due to the fresh capital brought into the country by the Paraguayan War, the Public Works Loan, and the starting of the German and Mercantile Banks. The Plate thrives on poverty; it wants no loans, no wars, and no new banks; the progress of the country to-day is solid, because based on hard labor, and whether it is that we lack the enterprize or the genius of the Australians, but certainly we must admit that this country is unable to handle or employ any more capital than it has.

Gradually, as the traffic on our railways grows, we make new branches and extensions, paying the labourers out of the receipts of the main line. We bring out from England sugar-mill machinery, but not until the canes are first grown. Ninety-nine per cent. of our sheep-farms and estancias have been paid for by the very product of the establishments themselves, and even our very Provincial Bank, the chief banking institution in the country, is not its very capital sprung from its profits?

European bankers and others will, of course, reject our theory, since it strikes at the very root of their influence and importance, and people in London and Paris say that what the Plate wants is fresh capital; but theirs is the error; what the Plate wants is precisely what it is getting, namely, fresh hands of a class and a nationality adaptable to the country. The arrival of Lavarello's steamer with one thousand Italian wheat growers is better capital for this land than the introduction of one million sterling fresh capital; and a London lawyer who recently visited Buenos Ayres, having first travelled all over Australia and New Zealand, assured us that the great advantage this country has over the British colonies is that it is not flooded with capital. Twenty thousand pounds will not give a man a start in Australia to-day, whilst 500 pounds is a splendid capital for a steady hard-working man to begin life with in the camps of Buenos Ayres. The River Plate, to thrive, must remain poor for many generations to come, since its industries are not of that class that can be much developed by gold sovereigns or napoleons.

The time will, no doubt, come when capital will have a wider scope, but at present we want no more banks. The only fresh capital the country requires is peace and common sense.

(Our own Correspondent.)

Feb. 3rd

I am afraid there is something wrong in the system of colonizing adopted by the National Government, or perhaps in the manner in which their intentions are carried out by their subordinates. At all events there are continual complaints. In the Cordoba papers I see the statement that there is a great amount of destitution in the Colony of Caroya; in fact the papers do not scruple to say that its colonists are dying of hunger. As usual, we must in this case, as in many others, make allowance for exaggeration, without which quality it appears that newspapers in this country cannot live. But there must be some truth in the statement, and it is our duty to inquire into the circumstances. That the good intentions of the Government are not, in many cases, carried out faithfully, I fear we must accept as a fact. In Caroya, as in other colonies founded by the National Government, complaints have been general and persistent. The Government have been repeatedly obliged to send agents to inquire into alleged abuses. The reports of these agents are not published, to my knowledge.

The National Administration labours under the delusion that the Provincial Governments are capable or willing to assist in the colonization of their provinces. It might as well be taken for granted at once, that with perhaps two or three exceptions, there is not a province whose Government would advance a thousand dollars to keep as many 'gringos' from starving. It is wonderful how tenacious in the descendants of the old Spaniards is the aversion to foreigners that characterized that race. I was amused reading in the *Standard* the other day that Corrientes had spent sixteen dollars in 1879 on account of immigration. I think I can safely say that Corrientes, however, has spent more than Santa Fe in the same year.

Everything, therefore, must depend on the National Administration, until a more enlightened state of things obtains in the provinces, and their Governments lay aside a portion of the enormous sums they now spend foolishly and uselessly in uniformed battalions, to foment education and immigration. But if the National Government continue their laudable efforts to spread over the whole country the new element that is arriving in the country in the shape of thousands of immigrants, they should not leave them to the tender mercies of Provincial or even National officials without a very strict supervision. Notwithstanding what you say in a number of the *Standard*, that the last batch of colonists sent to Caroya was formed of well-to-do people, the fact is that the greater part of the immigrants sent up the river by the Office of Immigration in B. Ayres are indigent, and the National Government can hardly with justice lose sight of them. Many of them return to Buenos Ayres; many others beg for an existence, while others become the victims of rapacious or ignorant 'comisarios.'

The elections for Deputies to Congress for Santa Fé passed off very quietly. In fact they were a mere formality. The candidates of Dr. Iriondo were duly elected. They are his brother-in-law, Dr. Zaralla, and his minister, Dr Reina. The latter seems to prefer the agitated life of a Congressman and the noisy streets of Buenos Ayres to the sterile honours or the Government House in Santa Fè and the sleepy atmosphere of that delectable old town. The election of these two gentlemen, or rather their nomination to Congress, enters of course into Dr. Iriondo's policy in reference to the Presidential Election. But our Governor is a long-headed man, and it is difficult to form an opinion of what that policy is. I rather think he is working to hold the balance in the events which may happen.

The works of the junction of the two Railways under one roof in Cordoba are proceeding very slowly, owing to the inevitable red-tapeism. Of course, the original plans, when brought to the test of practice, were found defective in several cases. With an authorised agent on the part of the National Government in Cordoba these differences might be arranged in two minutes between him and the engineers of the Central. But at it is, it a three-inch bolt is found necessary instead of a two-and-a-half one according to the specifications, a small volume of telegrams is indispensable before the consent of the National Government is obtained. When this junction shall be completed the difficulties attending the change of gauge will be obviated as far as humanly possible.

A very heavy hail storm desolated the camp to the north of Cañada de Gomez last week. I understand that at Las Rosas, Mr Kemmis's splendid establishment, great damage was done to the trees, plantations and grass. I hope the reports are exaggerated, but there is no doubt the storm has caused great losses.

Carnival has commenced in Rosario a week before its legal term. At night it is impossible to go out without being squirted at by innumerable pomitos. They have not yet taken to water; and in fact, to the honour of Rosario, water-throwing is confined to the suburbs. But on the other hand, to our dishonour, the disreputable masked balls are in full swing, perfect schools of vice and wickedness of every description. These blackguard sinks of iniquity, fostered as it were by the authorities, are making the word virtue unknown amongst the lower orders.

The river Parana is increasing its volume of water in an imposing manner. The old Custom House will soon be surrounded. The large space of dry beach in front of the town, when the river is in its normal state, will soon be the anchoring ground of all the coasting craft.

The National gun boat Bermejo has been lying in this port for some time, with what object I cannot tell.

LATEST FROM MONTEVIDEO.

(Our own Correspondent.)

Montevideo, Feb. 2nd, 1880.

Again we had a grand bull fight yesterday, and the last two Spanish bulls were made use of with the usual display of brutality and horse murder. The meeting was very numerous but not to be compared with the last, when from 8,000 to 10,000 persons were assembled. Some amateurs from your city were amongst those present at the ring. To-day there was another fight, 'corrida,' but as there were no Spanish bulls the meeting looked very thin. In fact, as soon as there are no more Spanish bulls the 'corridas' begin to look uninteresting for the majority of the amateurs, and I am in hopes that the bull-fighting will become stale, as the probabilities are that a great many of the amateurs only want to see the Spanish beasts, which are a complete novelty in the country, and I think that even if they should get more Spanish bulls out, the affair will never have the interest that was originated through the said circumstance.

The meeting of the members of the Bolsa subscribers was a meagre affair, and nothing was actually decided except that nothing was to be decided at all at present: they will look more into the matter ere the members decide what to do. The fact of the matter is, that so long as there is no gambling possible in Government paper or Securities the Bolsa meetings are small, and subscribers diminish in proportion. It is only the commercial community, exchange brokers, produce brokers, produce exporters and such like fraternity who muster there at the usual hour, and these do not make much noise, and gambling in public funds is not their mission. The consequence is that the meetings are rather meagre, as importers in provisions, wines and such like do not go there, but have a special place of resort under the Custom-house 'galpones' or the mole-head of the Herrera Buildings of the Custom-house, where sugar and wine (such as it is) vendors and mercantile wholesale importers sell to the shopkeepers and up-river dealers.

Our Carnival feasts are not going to be performed with the usual extravagance. The police seem to be the main pivot of the machinery of illuminations and ornaments, the people taking more to the masquerading part of the games and the 'pomito.' A 'cedulitas' lottery is to be played with the object of raising funds in aid of the expenses. The opposition pretend that the public has not contributed one cent towards the ornaments.

The Custom-house has given for the past month something like $f.350,000, if correctly informed, and this would show that the lowering of the Custom-house duties has been a sage move, yet, wonderful to say, the price of articles of general consumption in town has not lowered in any very sensible way except, perhaps, in dry goods, hardware and such like, but not in respect to eatables and drinkables from abroad. When these begin to lower in price in the shops, as it will eventually happen, we shall experience, I hope, a more active move in business and more consumption in town.

Property is still on the decline. Purchasers cannot be found to pay above a price which will secure a rent of 12 p% per annum, which is ruinous, and never was an instance known of rent to be worth more than 6 p% if the security is good. Some country people (estancieros) are buying, and possibly when the winter approaches more may come in to secure good investments.

Ralph.

P.S. A great cricket match took place to-day between the Montevideo Club and the Naval men, in which, it would seem, the former won the day. I cannot give you particulars as I was not present. I hear the meeting was numerous, and the day, though rather windy through the usual 'virason,' was otherwise pleasant.

Mr Forwinkle was umpire in the first games, and as he is going up to-day I hear he will be able to supply you with bonafide information of what took place.

LATEST FROM IRELAND.

The *Times*, January 5th, publishes the following:—

"The success of the meeting at the Mansion-house yesterday for the relief of distress is a subject of congratulation on all sides It is certainly satisfactory to find that the discordant elements which it was feared would break forth uncontrollably in dissension and confusion have been hushed, and that all parties have been led to unite cordially in an effort to do something by independent organization to alleviate the sufferings of the poor. The amount of subscriptions handed in on the spot is a good omen and earnest of a liberal response to the appeal for help. Every care has been taken in the constitution of the committee and the selection of secretaries and treasurers to guard against any suspicion of partiality and to make the movement thoroughly representative. An excellent spirit pervaded the meeting. The distinctions of creed were forgotten, and all present seemed to be animated by an earnest determination to work steadily together in pursuit of the benevolent object. There was also a scrupulous desire to avoid any appearance of rivalry with the Duchess of Marlborough, to whose noble efforts a tribute of praise was offered, and to whom is undoubtedly due the credit of having set the first example of an appeal to private sympathy. Although it was emphatically disclaimed, however, a little rivalry, or at least emulation, would probably have a beneficial effect upon the general fund. Her Grace's fund has now reached nearly £10,000, and the Mansion-house fund has had a very good start. The stream of public bounty will flow into each from different social levels, and it will be interesting to see which will have the largest store. While the meeting at the Mansion-house was proceeding yesterday her Grace's executive committee was hard at work in Dublin Castle. Her Grace stated that upwards of £9,000 had been lodged to the credit of the fund and she had received a cheque for £2,000 from the Lord Mayor of London as a first instalment from the London Mansion-house. This may be regarded as a challenge to Dublin, and, so far from deprecating rivalry, the poor, if they were allowed to have a voice, would probably applaud the promoters of both funds and encourage the most spirited competition between them. Her Grace also made the interesting announcement that a communication had been received from Messrs. Parry and Co., North Wales, stating that they had forwarded a supply of petticoats for distribution by the committee. These will, no doubt, be very acceptable, and if they be red, the women in the west, who have great faith in the virtue of red petticoats in cold weather, will like them the better. A letter was also read from the Mayor of Birmingham to the effect that he had called a meeting for Monday next to aid the efforts of the committee. Further progress was made in the formation of local committees in the most distressed districts, and sums of £20 and £10 respectively were granted to the committees of Ballynote and Bruff. Among the subscriptions acknowledged was one of 100 guineas from the London and Westminster Bank. And so the work goes bravely on. Private benevolence is now aroused on both sides of the Irish Channel, and it remains to be seen whether it will not prove adequate, in addition to the resources of the Poor-law and efforts made by landed proprietors and others to give employment on drainage and other works, to meet the requirements of the crisis."

EDITOR'S TABLE.

The steamer Paranagua has brought from Rio European news to 12th ult. The London papers publish telegrams from St. Petersburg announcing enormous military preparations in Russia, apparently for an attack on Turkestan in the coming spring. The rumour of a concentration of Russian troops on the Austrian frontier on a large scale is denied by the papers, but even official denials in these cases carry no weight with the public. The Russian Government has ordered 650,000 rifles in all haste, and the general opinion in military circles is that a war with Austria is imminent. The Empress of Russia is dying at Cannes, without one of her family being near her. The new Ministry in France is making a clean sweep of all Government employés who are not staunch Republicans; it is expected that fully half the ambassadors, ministers, and Consuls etc. of France abroad will be changed. The strikes in Belgium are in course of arrangement. President Prado of Peru had arrived in New York and was looking about for ironclads torpedoes and other pleasant things, for the benefit of the Chilians. The wine product of France was 23 million litres short last year. The Pope has dismissed his Secretary of State, Cardinal Nina, and Cardinal Jacobini will succeed to the post. The regicide Otero has written to King Alfonso imploring pardon. Eastern affairs are again looking black, and the Powers are expected to interfere. A Holy War is being preached all over Afghanistan. Great excitement at the Cape owing to the arrest of the ex-President of the Transvaal Republic on a charge of high treason. The situation of the British in Afghanistan is considered to be greatly improved. The misery in Silesia is awful, 160,000 people starving, and the Government at Berlin taking active measures of relief; a large number of people have already died from starvation. The thaw is general in Europe: The rising of the Seine did fearful damage, sweeping away bridges and everything in its course. The Danube did likewise. We have seldom published a sadder budget of news from Europe, and our petty electioneering troubles here seem smaller still by the side of the calamities present and in prospect there.

Dr Irigoyen's proclamation as candidate for the Presidency was published yesterday in the *La Paz*, and it will be a blessing if he or some other peaceable man be chosen by both parties and an end put to the present alarming situation. Amongst the names attached to Dr Irigoyen's proclamation we see those of the Venerable Dean Dillon, James Murphy, Patrick Ham, Ed. Murphy Richard Eastman, John Brown, J. Murphy, R. Gowland, and other Anglo-Argentines; the list of native names is most influential, including six Senators and a host of Deputies.

The *Prensa* made truly tremendous revelations yesterday about the Public Land Office. There is a 'tornillo flojisimo' somewhere, and the sooner it is tightened the better.

The shooting affray in Calle Florida on Wednesday is warmly commented on in every circle. A pretty French milliner who was standing at her door had a narrow escape of a bullet, and the 'escudo' over an insurance office was riddled. Pleasant work in the most crowded thoroughfare in town.

In addition to the comet, a very brilliant meteor was seen to pass across the northern heavens on Wednesday night. Nervous people are sorely perplexed with all these signs and portents.

We regret to read of a lamentable accident in the family of Mr Bush, the well-known barraquero, one of whose children fell into a well on Wednesday and was drowned.

Quarantine is to be at once raised to 15 days on vessels from Brazil. It appears the fever is not declining in Rio.

The European immigrants now arriving are turning their attention Southwards. Mr Dillon has application from 50 families who are anxious to be sent to the banks of the Rio Negro, on the same conditions as those recently sent to the 'ejido' lands of Parana.

There were telegrams from Chile yesterday. The Peruvian Bondholders in London have arranged with the Chilian Government.

There is a terrible hubbub all over town about the new Municipal crusade against dogs. It appears that the crusaders are a very shady lot and enter private houses and give the inmates all kinds of annoyance, a monstrous proceeding which should be at once nipped in the bud. It is really lamentable to see the Corporation fooling after the canine population while there are so many more important civic matters requiring attention and reformation.

Parents should be careful about their children who attend day-schools this hot weather. On Wednesday a fine little girl died at Almagro from a sunstroke while on her way to school.

Colonel Alvaro Barros and Mr Lista, the explorer, will sail for Patagonia on Sunday next.

On Wedneeday President Avellaneda received a superb gold medal from the Santa Fe wheat colonists as a souvenir of the visit he paid them last November.

The papers from Rio say that the Brazilian squadrons in the Plate and Paraguay are at once to be largely reinforced. What's the hurry for?

The Welshmen at Chubut have got a new post-master—Mr George Zemborain, who was gazetted yesterday.

Major Sivori is under orders for Europe: he goes to report on the Arsenals of Europe, for the War Office. 'Toujours la guerre.'

The death of Mr. Frederick Terrero, from the effects of a surgical operation, was announced yesterday. The deceased gentleman was very highly esteemed.

The Montevidean papers report that the bull fight there on Sunday was splendid. Ostion, the 'espada,' was nearly smothered with all the Havana cigars thrown to him. There were over 200 visitors from Buenos Ayres. Mr. Bonomi's gunpowder actory at the Buceo blew up again on Sunday last, but only one man was injured. Carnival will be splendid in the sister city. Five thousand patacons already spent in decoration alone, and there will be gorgeous illuminations in Plaza Independencia, fireworks, balloons and Tom Walker knows what else besides. 'Vive la joie' is the motto at the Mount for the next week.

The papers say that the masquerade ball at the Politeama on Monday night was the best and most enjoyable of all given in town. We do not doubt it; this theatre is at the head of them all in the way of size and ventilation, to say nothing of the way in which it is decorated, which is second to none.

Dr. Ruiz de los Llanos gave a splendid tertulia on Sunday night last, at his beautiful quinta. Dancing was kept up till an advanced hour.

We read of a wake at Dolores last week in which the corpse of a child was made the centre round which a degraded mob of friends and relatives kept up a dancing and drinking orgy for two days and two nights, the most conspicuous amongst the revellers being two or three members of the local police force!! No wonder that we hear so much of sheep-stealing.

The Chilian papers to hand hold out a prospect that Sr. Balmaceda will again be sent to this country as Special Envoy, with entirely new proposals for settling the Limits Question. 'A la bonne heure!'

The National Government has given the Tucuman sugar-planters another commendable pat on the back by considerably reducing the freight for sugar on the North Central Railway. The sugar industry in the Interior is going ahead far faster than many people suppose, and let not the sleepy-heads be surprised to see Captain Brisbane or some of his confreres taking sugar to Liverpool before any of us are very much older.

Our native colleagues allude to a probable duel between two high Government officials. Are we never to have done with this barbarous custom?

We are glad to hear that Dr. Jose M. Moreno, Vice-Governor of the Province, is recovering steadily from his recent attack of illness.

Mr. Moreno's telegram to President Avellaneda from 'the centre of Patagonia' opens new visions of bliss for our estancieros. Instead of the arid wilderness he expected to find, Mr. M is up so his chin in clover and the most magnificent pasturage, with immense forest of valuable timber fertile valleys, leagues of delicious wild strawberries and other delights on all sides of him. The only drawback is the scarcity of water, but Artesian wells will settle all that, and here is another fertile province added to the Argentine Confederation. Certainly, when the Earth was born, Dame Nature stood godmother to this part of it, and she has not forgotten her godchild.

General Mitre has left town for Mr. Rossi's estancia at Pergamino, where he will remain till after Carnival.

Any one wishing to send to England or the United States the plans etc. designed for constructors of machinery for the coming Exhibition here must apply to the Secretary of the Exhibition at No. 485 Rivadavia, who will forward them. The 'Boletin' of the Exhibition will be out in a few days.

The latest news from the Canary Islands is of terrible floods there and the harvest totally lost. Montevideo may look out for large arrivals of Canary wheat-growers soon.

The Buenos Ayres Conservatoire de Musique was brilliantly inaugurated on Monday at the Quartette Society's Rooms. The concert was magnificent, and the audience was dense and 'distinguido.' The Conservatoire, we fully expect, will soon be turning out some Argentine Stagnos and Tamagnos of the genuine 'divino' stamp.

Our Italian colleague the *Operario* is 'ravis' with Mrs Calzetta's restaurant on Carapachay Island: He says it is 'una delle piu amene e piacevoli' places in which he has ever stuck his legs under mahogany. Right you are colleague.

A morning colleague tells the public to expect a political manifesto from the President of the Republic about the electioneering situation in a few days. This is important. The President's political utterances are always sappy and to the point.

The United Service, No! United Servants' Association is the name of a new Society recently formed in this city for the purpose of affording domestic servants greater facilities for obtaining situations. Mr. Castro y Ramos is its President. The idea is good.

We are desired by H.B.M. Consul to state, for the information of shipmasters and others, that on Monday and Tuesday next, being days of Carnival, there will be no attendance at the British Consulate.

MASK BALLS

When the thermomer is 95 in the shade, Farhenheit, then the rage for masked balls commences in B. Ayres, inside of Theatres well heated with gas and impregnated with odours which throw Lubin into the shade.

If there is anything people do not understand in this country (I do not pretend to say there is anything) then it is mask balls. There is no life, no animation, no good dresses, and what is still more wanting is that repartee and determination to be amused and to amuse others which you will find in Paris, Madrid, etc. The mask balls in London are as great failures as they are here: where are your Debardeuses, your circus clowns, your Dianas and Venuses rising from the sea? no, I think a bath might do many of them good; we may search in vain for them, just as you would for an agreeable adventure, a charming rencontre, a little escapade of Juanita or Enriqueta to open her heart to Juan Antonio or Jose Manuel. Surely if there had been anything of the kind we would have heard of it, as I believe the newspaper Editors in this country have never been accused of being too modest.

Oh! yes, about three or four years ago there was a grand mask ball at the Progreso, and about two in the morning a gentleman met a friend exceedingly busy with a domino; "how are you getting on che?" he said in Spanish, to which his friend replied "splendidly, I have come across a perfect treasure." "No embrome hombre, si es la fulana!" "Que esperanza hijo! es una perla, un boton de rosa; and you, how are you getting on?" "Oh! first rate, I have just been dancing with a most lovely girl, and what is more is that she has an inclination to take a drive out to Palermo now." "Well that is all right, my friend is quite disposed to do the same, as she finds it so very warm here." "Well, let us take a carriage che, and get a little fresh air." No sooner said than done, and hardly were the gay Lotharios en route than they began to endeavour to discover who their bold partners were, but the resistance was, of course, tremendous, desperate, in fact; the two ladies were most anxious to return to the ball, but it appears that the coachman was overcome whether by the heat of the weather or by devotion to Bacchus (because this took place in Carnival time) it is impossible to say why he had such an unsteady hand, but the upshot was that he ran up against a lamp-post and discovered to his cost that it was harder than the wheels of his coach, which separated from the body of the carriage and all came to grief together. When the parties were extricated they discovered to their dismay that each gentleman was taking the greatest care of the other one's better-half.

But if people are so anxious for mask balls why not go to the Jardin Florida 'al fresco,' beautifully decorated, carpeted, and good music; what more do you want? why, surely far superior to any theatre—besides you are close to the Retiro where all is soft and silent as an infant's slumber; that is the place to take a stroll, bid her count the stars, and take an ice at the cafe alongside,

An old Stager.

THE B. A. J. ATHLETIC SOC. C. C. v. THE SOUTHERN C. C.

The return match was played on the ground of the latter club at N. Barracas on the 2nd inst. resulting in the victory of the Southern by an innings and three runs.

The play on both sides was fair, capital scores being made in one or two instances.

The bowling, which never flagged all day, was extremely good, which accounts for the small scores made, which were as follows:—

IRISH RELIEF FUND.

Calle Victoria 281, B. Ayres,
Feb. 5th, 1880.

To Michael Carroll, Esq., Trustee of the Irish Relief Fund, B. Ayres.

My dear Sir,

I hasten to remit you the amount of my collections in the town and district of San Vicente (whence I returned this morning) together with the list of contributors.

Accompanied by Mr. Thompson, I made a hurried round, and although few of the shop-keepers knew even where Ireland was, not one refused to give in so worthy a cause.

I must ask you to have the list published, as well for the satisfaction of the contributors as to prove what may be done in other more favored towns to the North of the Province where the merchants' best customers are our countrymen. In this way not one but two millions might be got together within a month, thus saving the lives of several thousand of our starving fellow-countrymen.

Believe me to remain,
My dear Sir,
Your obdt. servant,
Francis H. Mulhall.

There was a break in the gold market today, and it continues. The fall in gold may be attributed to the great scarcity of paper money and the increased confidence in a political improvement. The injury which the extreme political excitement causes the country and the market is admitted by all, and the Tiro Nacional Volunteers marching through our streets and frightening the more peaceful citizens out of their wits is now admitted by everyone to be nothing short of a political nuisance. The arrangement of the presidential question is looked forward to to-morrow through the medium of a conference between the President and the Governor. One safe and proper course to adopt would be to get up a petition to both Governments asking for a general disarmament, and getting fifty thousand signatures to same. If politics had nothing to do with the market, gold would certainly be down to 30 m/c. or under, owing to the splendid prices in the home markets for River Plate produce.

Gold opened at 31.50, rose to 55, and closed at 31.50, the cash sales reached 125,186; the sales of the day amounted to 418,186.

Cedulas rule firm, they opened at 82⅛ and closed at ⅝. Treasury Bonds firm at 76, and Nat. Bank Shares as usual at 59½.

The shareholders of the Platino Braziloira Telegraph Co. are invited to call for their dividend; rather a grateful notice. This is the 4th div. and is 3s per share, see notice.

We have received from Montevideo an important letter about Leon Island, proving that its first settlers were English, and the place is not French; we hold the letter for to-morrow.

The splendid steamer Dom Pedro, Chargeurs Reunis line, entered Montevideo this morning from Havre.

Eastman and Co.'s compressed tea has taken a great run in this market and is now purchased by the wholesale dealers.

We received this morning from Rosario Messrs Thompson and Son's circular but as the news has been nearly all already published, we merely extract the following—

"Freights. The exportation in general, since our last, has improved, there having been more cargo offering for steamers and sailing vessels; we close the month with ten charters, and there are five vessels disengaged with 1,155 register tons."

The proclamation of Dr Bernardo Irigoyen as candidate for presidency was published this morning with about one hundred names of his principal supporters; the paper reads very well, and we really know of few men who would make a better president; Dr Irigoyen is one of our best and most talented of public men, and his long connection with public affairs renders him doubly eligible.

The sale of two coal cargoes to arrive at 8 pats each is reported; rather a cheap figure for good English coal cargoes.

The Nestorian is posted to sail on 10th inst. She has already nearly all her cargo engaged.

Government has named Mr H Medrano to superintend the burning of the Cedulas at the Mortgage Bank this month, Cedulas that were paid into the Bank to free the properties from Mortgage.

We received from Rosario this morning another letter from our popular correspondent, Piky's Peak. We are compelled to hold it over for want of space; affairs in Rosario seem to flourish.

The river Parana is again high and the waters in some places cover the Islands. Above Rosario the flood is as great as at the mouth of the Guazu.

Yesterday there was a large business done in Montevideo in stocks; the following were the sales:—

$ 3,100 Titulos Especiales at 5½ o/o cash
13,000 Titulos Adicionales at 26 o/o for to-morrow.
10,000 Deuda Fundada 2ª Serie bis at 26 per cent for to-morrow.
20,000 ditto at 26 o/o ditto.
5,000 Deuda Rescate de Tierras for to-morrow at 28 o/o with Especiales for the buyer.
2,000 ditto at 27⅛ o/o without Especiales.
10,000 Emprestito Extraordinario 2ª Serie at 27 o/o cash.
2,500 Titulos Adicionales at 26½ o/o cash.

The French barque Requette cleared yesterday from Montevideo with 102 mules for the Antilles.

The gold sales were:—

For cash 125,186 31.50-55-50
For Feb. 7th 56,000 31.50
For Feb. 15th 15,000 31.55
For Feb. 29th 127,000 31.65-60
For March 31st 95,000 31.70-65-70
Sales 418,186.

Cedulas—
For cash A 4,000 at 82½-⅝
For cash C 1,000 at 80
For Feb. 16th A 5,000 82½
For Feb. 29th 45,000 82⅝

Treasury Bonds—
For cash 1,500 at 76

National Bank Shares—
For cash 50 shares at 59½
For Feb. 29th 590 shares at 60-59⅝-½-⅝-60

Gold at afterhours ruled the same, 31.50, and looking down. Everything seems to hinge on politics. Gold keeps steadily flowing into the River Plate from Europe. The Tamar brings £30,000 in sovereigns to the Liebig Factory, and we believe to-morrow we shall be in a position to state that telegrams have been sent for £100,000 stg.

Captain Jas Lawson, Commander of R.M.S. Guadiana, took leave of his friends on 'Change. He goes on board to-morrow morning. His steamer is filled to-night. Amongst the passengers leaving in her are Mr Daghlish and Mr Thompson of the leading firm of C D Thompson & Co. There are 28 first class, 4 second, and about 20 third class passengers. She takes the following cargo—

9300 salted hides
1525 bales
7000 dry hides
200 boxes tongues,

and fills up in Montevideo.

Exchange looks upward, and the Provincial Bank has advanced its taking rate to 50½ London and 5.30 Paris, and took something today. First class commercial bills were done at 49⅜, 49⅝ and at 50d.

Messrs Duggans sold the following lots wool.

The following vessels will be out of quarantine on 8th inst.—Braz. steamer Calderon, Portuguese brig Lidador and 2 Spanish vessels Maria Louisa and Dos de Mayo. Yesterday 17 of the steamer Valparaiso's passengers arrived up from quarantine on Flores Island.

The sale of a lot of Entre Rios hides in Barracas reported at 49 rls. gold; 500 lbs. nutria 11½.

Don Manuel Lawson, who for the last ten years resided in Valparaiso, was welcomed on 'Change; he is brother to the Messrs. Lawson, eminent brokers of this market.

The Pollinini mail closes to-morrow per Sud America, and much Italian exchange passed to-day for her.

Mr J A MacLean, shipbroker, has started a Register of Exports in tabular form that shows the exports daily at a glance. This valuable register is placed at the disposal of merchants, to whom it will prove a regular boon, as those wishing to keep their constituents abroad well posted can do so by applying at Mr MacLean's office, 118 Reconquista, without waiting for the publication of the regular monthly circular. This register is written up daily and the data are official. We extract the following:—

The business in wool this morning at Plaza Once was rather limited, in consequence of the weather and the now chronic inconvenience of deficient deposit space to unload what arrives from the camp. Very few sales were effected, but the general tone of the market is towards steadiness. Our reporter has not sent us his usual list of prices to-day.

The rain this morning was not general; Flores, as usual, was favored, but in other parts not a drop. We had a visit to-day from an estanciero who has just come up from the Moro; he says that the drought down there has been so severe that there is not a single sheepfarmer left down there, all having moved off with their flocks, and as for the cattle, months ago the estancieros removed them. For ten months it has not rained down there and the splendid estancia of Guerrico, which is now rented by Luro, and which according to the lease must be fenced by the tenant, is also done up by the drought. At the dilig nce office to-day the news was that at last it has rained down there and things are coming around.

The extreme scarcity of paper money was the first topic on 'Change this morning. The banks are all calling up paper money, and we hear of one merchant who has to pay up nine millions currency, vencimiento falling due, and which the bank declines to renew, but offers to lend the merchant 300,000 pats. gold. At the end of January the paper money movement at two of our private banks was very large, being 40 millions currency at one and 32 millions currency at another, amounts which in former years were unknown to this market, and this shows the very wide extension of business. It is the fixed belief of all on 'Change that were there no political alarms, no Tiro Nacional, patacones would now be down to $30 m/c.

The 'retroventa sale' of the fine house in Calle Florida by Messrs Gutierrez and Lavarello is the talk of the Bolsa; the business has attracted great notice, as although the price paid is marked at 1,900,000, there are many in this market who would willingly have paid for it two millions.

In the wheat market prices are now double what they were this time last year, and as the Montevidean market has given way, it is thought that if the Government will let in the Montevidean wheat free, we shall soon have wheat from there; we note that in the month of January there were 570 tons wheat exported, also 263 tons flour and 604 bags beans. In Entre Rios there is no wheat, and the Villa Colon mill is not working. Query what becomes of the wheat of the Russian colonies?

Copy of Analysis by Professor Kyle.

National College, Buenos Ayres, November 29th 1879.

Messrs. M. Forrester & Co., Buenos Ayres.

Gentlemen—I have at your request made a careful examination of the sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily mixible with water, from which it does not afterwards separate.

The proportion of active ingredients amounts to rather over 80 per cent it is free from Mineral Poisons and from Caustic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a Sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a domestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.

I am, Gentlemen, your obedient servant,

JOHN J. J. KYLE, Professor of Chemistry.

Extracts from Testimonials

From Mr. Alex. Stewart, Bailiff to H. D. Pochin, Esq. Rodaent Hall. Wales—

"The Sheep Dip is the best that I have ever used. I have not seen a single Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be appreciated."

Muy importante para el Publico.

Poseido de la mayor ansiedad, y con el debido respecto al Publico, apelo muy encarecidamente a toda clase de personas, para que se dignen prestarme su apoyo, dando a conocer como tales las malas y aun peligrosas falsificaciones de mis medicinas, hechas principalmente en Nueva York, de que tengan conocimiento.

Especuladores nada escrupulosos adquieren esta broza a un precio sumamente bajo, y la venden como si fuera mis genuinas pildoras y ungüento, logrando con este reprobado trafico una enorme ganancia.

Ninguno de los expresados medicamentos son genuinos, si no llevan en el rotulo de cada bote y caja la inscripcion siguiente: Holloway's Pills and Ointment, 533, Oxford Street, London, y el sello del Gobierno Britanico, con las palabras Holloway's Pills and Ointment, grabadas en el.
